Q5B: Ms. Frederick has an M.Tech degree in automation and she has an expertise over product designing. She started her job in multinational company which work with high end automation in mechanical devices. She used to travel a lot because of product conceptualization to finalization. She is being considered as an expert of the domain area. While travelling, she often noticed that differently abled persons have difficulty in moving on the stairs with their wheelchair from one point to another because availability of ramp is rare and it is impossible sometime for them to walk up the stairs. She came up with an idea of an automatic wheelchair which could be used on stairs easily. She has decided to quit her job and to start her own venture. She realized that her idea was the first stage in the process of innovation. Identify the concept and explain the steps in its process.
